ABSTRACT *The roaring economy has created a despite thirst for skilled a graduates massive shortage of accredited educational institutions to teach them. India's economic reforms, which eased the choked, hold of bureaucracy and corruption, kicked off this era of growth 15 yrs. ago .but those reforms have yet to be applied to education .there are near – insurmountable bureaucratic obstacles to opening a new accredited institutions instead ,thousands of unaccredited schools have sprung up, offering education of widely varying quality ,luring students who hope that employers hungry for engineers or business graduates wont scrutinize their credentials too closely.*

Sir Anand kumar of Super 30 initiative is best institute in India and an example of change a dream, which helps economically improvised sections and hones their skills by providing a conducive environment to crack IIT JEE to excel in Indian Institute of Technology This case study focuses on the parameters of the study included how students from deprived sections of the society overcome the obstacles and how their life changed after joining Super 30 Super 30 was selected as a case for showing how education could make a lasting difference to deprivation.

Introduction – Super 30 Ramanuj School of Mathematics

Road to IIT super 30 which provides free coaching to, rural & underprivileged Students to crack the IIT- JEE to excel in Indian Institute of Technology. If Super 30 Has becomes an Architect for the budding poor talents, it is not without a reason. Fascinated by mathematics since early childhood, Anand Always Dreamt of becoming a Mathematician .His mathematical bent of mind was spotted by renewed teachers, who provided him encouragement.

Sir Anand got an opportunity to pursue higher education in Cambridge University, but his poor financial health came in way. Having witnessed extreme financial Hardship since childhood, he felt the pangs of poverty so much that he decided to do something for the poor students, who invariably fade away without getting right opportunities .this led to the birth of new form of Ramanujam school of Mathematics.

1.Origin of Super 30

Within three years Super 30 had nearly 500 students .Although the fee was nominal RS 1,500 a Year – Some poor students could not pay .Once a boy came to Anand Kumar and said that he wanted to study but could only pay after his father a poor Farmer ,had harvested potatoes .In Bihar ,we call it *aloo ukharana*. It didn't want to take away the boy's only hope of changing his life because he couldn't pay. That's when I decided that will form a group of 30 bright students, all from poor families, provided them with the board and lodging and prepare them for IIT.

This group was called Super 30 Anand Kumar brother Pranav Kumar , a violinist by profession , managers the institute , while my mother cooks for the Students .In the last seven years,400 students out of 2015 have made it to different IITs of country .And for the last

two years ,all thirty students of super 30 have made it to IIT . Parents of some students are bricklayers some work as domestic help .Now many of our Students are working in Europe and the US.

2.Teaching Methods – S30

Teaching success is combination of three factors. My students have junoon(passion) A fire in them to achieve .two ,our teaching approach is different .Anand Sir used multimedia slides to make a little story with characters to explain Math's concepts. Three, Students take tests every day. Well, in nutshell we teach our students the how and why?

Fanatical teacher: Persons having motivated by excessive for a specific cause.

One-room Schoolhouse: one class – room were commonplace through rural portions of various countries like USA, INDIA

3. Objective

- To know the potential of super 30 in sharing science & mathematics knowledge instead scarcity of financial resources.
- How super 30 will prepares his student to crack IIT & removes the poverty?
- To identify the teaching methods adopted by Sir Anand kumar in Super 30.

4. Research Methodology

The data used is secondary in nature and has been collected from various websites and reputed journals.

Institute	Fees / Yrs.	Duration	No of enrolments	Final selection	Faculty Qualification
Vibrant Academy	80,000	2	1500	120	B.Tech (IIT)
Bansal Classes	1,00,000	2	3000	500	B.Tech (BITS)
Kota point	1,30,000	2	4500	720	B.Tech (NIT)
Akash Institute	90,000	2	5000	1000	B.Tech (IIIT)
Super 30	0	1	30	30	B.Sc. (PATNA UNIVERSITY)

TABLE: comparison of IIT JEE coaching Institute in India.

Super 30 made records in 2016 best school in Asia, hence it proves that **Input 0 & Output is 100** & reaches to Pinnacle that none coaching from India dares to achieve what Super 30 grasped in past , major contribution to our nation to alleviation from poverty.

Conclusion

It has been observed from the above table is that all coaching institute except super 30 has given maximum no of selection of IITian to country , which is kind of amazing worked did by Sir Anand kumar ,founder super 30 wanted to study in IIT but fail due to poor financial condition .

So, sir Anand kumar has devoted his whole life to teach to poor students to get admission in Indian Institute of Technology, by this model till 2105 approx. 500 poor students got admission to IIT, hence Anand sir still trying to remove the poverty from rural society.
