Conclusion

Every particle in this Creation is associated to us and our life. It is said that the universal creation, right from the precision atom to the subtlest Mahat Tattva is fundamentally connected and entangled together by a single thread. The star effects had been connected with the Brahmasidhanta wherein human life has been well connected to zodiacal system. Our ancestors and Rishis also used to say that when you perform Yagna (sacred fire ritual) here, the vibrations and effects will reach everywhere. When you pray, your prayers have the power to move the whole world. For controlling or eliminating the star effects or planetary effects to a great extent it is optionally better to chant relevant mantras to get rid of their malefic effects. The mantras related to Aslesha star is very effective which work in a precision form to reduce the intensity of astrological problems of the mankind.
