

HOMEOPATHIC TREATMENT OF HEMATOHIDROSIS (OBSERVATIONAL STUDY)

Homeopathy

Dr. AK Dwivedi

Professor And HOD, Department Of Physiology And Biochemistry SKRP Gujrati Medical College, Indore, India

ABSTRACT

Hematohidrosis or Haematidrosis is a medical condition in which a person sweats blood. It is a very rare condition and not reported often. This condition is also referred to as bloody sweating (perspiration). It is still unclear why persons come across this condition. The bleeding may be due to the rupture of the very small blood vessels of the skin (dermal capillaries). It is also reported that this condition is also caused due to a very high level of stress. In this paper, we have discussed about our case study done on a 17-year-old teenager who was suffering from this disease and who has now completely recovered with homeopathic treatment.

KEYWORDS

Hematohidrosis, Haematidrosis, Bloody Sweating, Skin, Stress, Homeopathy Etc...

INTRODUCTION:

This is a very rare disease, in which blood comes out of a person's body instead of sweat. This condition is extremely painful for the patient physically and mentally. Only one out of millions of people around the world falls victim to this disease. Fear and intense mental contemplation are the most frequent causes. It may also occur in bleeding disorders.[3]

Maximum of the cases are stated to have blood sweat with extreme force or apprehension. Details are also available with otorrhoea and osteoarthritis, with epilepsy and with primary thrombocytopenic purpura. [2]

The General Examinations Carried Out On The Patients Suffering From The Hematohidrosis Are As Follows: [1]

- Blood tests to see if platelet and red and white blood cell counts are normal.
- Biopsies of the affected area to test for abnormal cells.
- Testing for various infections
- Psychological testing
- Neurological testing, including brain scans

Case Details:

A 17-year-old teenager girl was suffering from this disease, who has now completely recovered with homeopathic treatment. Due to this disease, patients have to face misconceptions like ghosts in the society. According to the family of the victim, whenever they used to get a call from their daughter's school or coaching, they used to get scared that the bleeding might start again. After examining the patient condition the treatments were given.

Before Treatment

After Treatment

Homeopathic Management:

Homeopathy can be helpful in reducing the symptoms of haematohidrosis by improving the body's natural balancing process and also with no side effects treat the root cause.

Following Medicines Were Prescribed: [5-13]

- **Phosphorus**:- Helpful in controlling the bleeding tendency.
- **Hamamelis Virginiana**:- Useful for strengthening blood vessels.
- **Arnica Montana**:- Effective for skin haemorrhages and vascular weakness.
- **Carbo Vegetabilis**:- Helpful in improving blood circulation.
- **Ferrum Phosphoricum**:- Useful for stopping blood weakness and micro bleeding.

CONCLUSION:

From the case study conducted at our Advanced Homeo Health Centre & Homeopathic Medical Research Pvt.Ltd. Indore, we have found that if proper homeopathy medicines are taken the disease can be cured completely with no further recurrence.
