Use of Information Technology in Teaching Learning Process of Education

Pro. Alkaben H. Patel

Arts & Commerce College – Motapondha (Gujrat)

KEYWORDS

None class of humanlife is out of range of Information Technology since wake up man frequently use the Information technology operated gadgets. All works from study to settlement of complicated scientific querries, Agriculture to weather forecast are done wihin a few time with help of information technology. Genrelly below mentioned three type of works are done with the use of information technology.

❖ Conversion of general information in to useful information.
❖ Use of same formation for other purpose even after one use.
❖ Information presented in the form that can be understood easily.

Therefore, professor should use in learning-teaching process keeping in view of students age, class, purpose, subject, capacity etc. as per own wosdom and above classification according to their experience, Because as per UNECO'S defination.

"Education technology is also a cyllabus and use of teching matrial as proper use of medium to achive desire goal, selection technique, clarification of students goal and proper classification of study situations."

So, professor should use education technique in teaching work and makes study intresting, live and effective. Educational technology instruments includes Drawings, Chart, Poster, Model, Tape recorder, Radio, Film, Film-slide, T.V., Projector, Computer etc.

Out of this, power point presentation is an effective instruement to present educational subjects by use of computer. Because, power point is a very useful software for teaching by computer for any class and any subject. Even with the help of multi-media, pictures, and written information power point could be more attractive.

If presuming this is an example than…

Education by power point presentation technique to students of commerce stream.
Sub : Buiseness Administration

Topic : Tourism Management.

(Referance : Taluka- Dharampur and Kaprada of Dist.- Valsad in Gujrat,India)

Preface : -
At present Tourism Development is very helpful Industry in economical development of any country. So, many countries are taking active part for research in this field. In India, Gujrat and even south gujrat are making efforts for development of tourism Industry. The stops are taken for care of monuments, motivation to public and Private Enterprises, in the tourism structure, departmental changes, de centralization etc. for development of tourism.

Refrence to this activity in Gujrat's picture seen that, necessary development of all tourism places are not done , in view of Industry sector, Urban area are more developed than compared to rural areas, This picture is here you see that Taluka of Dharampur and Kaprada of valsad District.

Now, we see the picture of the same Taluka as an example.

Index of important tourism places at Taluka.

Dharmpur	Kaprada
1. Pindvad- capital of vijayraj king	1. Laukar- Varvat, oldest mahadev temple
2. Piprol-	2. Babar Khadak- Five different kund of Pandav.
